

THE PARTNERSHIP PLEDGE 12 YEAR AUDITED WARRANTY

As part of our commitment to our partners Securistyle offers an audited warranty scheme to social housing providers who choose to specify our austenitic stainless steel range of window and/or door furniture. It is called the "Partnership Pledge".

Working in partnership with the chosen contractors and manufacturers we help ensure that our products are safely and correctly installed and that any pilot projects are bench marked at the highest standards with the aim of ensuring client satisfaction. We also pledge to play our part in ensuring these standards are maintained throughout the duration of the project.

We offer directly to the housing provider a 12 year no quibble warranty on our products. This is a stand alone warranty and does not in any way impinge on any other guarantees offered by other contractors.
